**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claims 2-5, 9 and 13-18 drawn to an invention nonelected with traverse in the reply filed on 01/16/2009. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 6, 10-12 and 19-20 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Fujita in view of Rapp.

Fujita shows a lifting linkage having two sub-linkages connected to one another by a central articulation. Front scissors feet 41 slide on the bottom part and rear scissors feet 17 are fastened to the bottom part. A vertical drive unit 18 connects the base with a portion of the front linkage.

Rapp teaches that a drive unit may be connected between the lower front scissors feet and the central articulation. To mount the drive unit of Fujita between the front scissors feet and the central articulation would have been obvious in view of the teachings of Rapp. One skilled in the art would have been motivated to do this in order to provide a more convenient accessible location for the drive unit.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

### ***Response to Arguments***

5. Applicant's arguments filed July 6, 2009 have been fully considered but they are not persuasive.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

In response to applicant's argument that the combination would not be satisfactory for its intended purpose, the test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981).

It is also noted that changing "a top part" to "a patient support" and "a bottom part" to "a base plate" does not change the scope of the claim, since terminologies alone do not further limit a claim structurally.
